

I have listened to Satellite Radio since Christmas of 2003 and I have enjoyed it more than words can say. I enjoy it because I pay for this radio to be broadcast into my home, and I don't wish any channel to be taken away from me. Please don't take away the updates for weather and traffic updates because I like listening to these stations just as much as the music on the XM Radio. Please protect my right to chose what I want to listen to and what I don't want to listen to. Thank you for listening and standing for what we believe in.

Sincerely,

Kari Stevenson
